coalition - a combination of parties or states. For example, in 2001 a U.S-led international coalition invaded Afghanistan. Domestically, coalitions can be made up of many organizations which band together to pursue a particular cause, as for example the Christian Coalition of America is a coalition made up of many different Christian organizations for the purpose of influencing public debate on moral affairs. There can also be legislative coalitions, in which legislators team up with others to advance a particular issue or piece of legislation, even though they may not be of the same party or agree on any other issues.

code - a systematically organized set of laws, such as the criminal code, the civil code.

codification - the act of arranging laws in a code.

coercion - the use of force or other powerful means of persuasion to get someone to do something.

The links for each letter on the Dictionary cuts off the menu when clicked (see below).

abdication - voluntary resignation from office by a queen or king. The most famous abdication in recent history came in 1936, when Britain's Edward VIII abdicated the throne because the British establishment would not permit him to marry Wallis Simpson, an American divorcee.

abrogation - the repeal of a law, treaty, or contract, either by mutual agreement or unilaterally.

absolutism - theory of absolute government. Power can be vested in an individual (as a dictator), an office (as a monarchy), a party, or a government administration. The government is not restricted legally by any other government agency. Thus absolute government can lead to absolute power vested in one individual-e.g., a dictatorship.

"Whatever may be our wishes, our inclination, or the dictates of our passions, they cannot alter the state of facts and evidence." — John Adams, President of the United States, 1797-1801

Controversial Tax Bill Nears Passage

~ Week of February 5, 2018 ~

The Republican-controlled Senate has joined the GOP-led House of Representatives in passing the largest tax overhaul in thirty years. Its passage involved a stunningly quick trip through Congress for such complex legislation.

Presiding over the Senate, Vice President Mike Pence announced the 51-49 vote to applause from Republicans. Sen. Bob Corker, R-Tenn., was the only lawmaker to cross party lines, joining the Democrats in opposition.

Democratic Senators derided the accelerated process, criticizing their Republican colleagues for hatching the bill in secret and then crafting it so hastily that lawmakers were handed a rough version that still had scribbles-in-the-margin. There was little time to review and discuss before having to vote later that night, at 2 a.m.

Polling Questions

Which file can I use to change the design on this page?

- party
- personal

**Would you be willing to pay more in taxes in
order to guarantee free tuition at all state
universities and colleges in the U.S.?**

- yes
- no

[Submit Research](#)

Data are submitted successfully

Polling Questions

Which is more influential when making decision abouts tax policy, your party's official position or your personal assessment of a bill's merits?

personal

Would you be willing to pay more in taxes in order to guarantee free tution at all state universities and colleges in the U.S.?

yes

no

Submit Research

News Quiz

If a student doesn't answer all the questions for the quiz, can a message appear telling them which questions must be answered before they can submit?

Some teachers might not require that students take the poll, so students should be able to submit the quiz without the poll. And submit the poll without taking the quiz.

The message about missing questions should only appear on the poll if they decide to submit answers to the poll.

- Businesses will pass along the savings from the new corporate tax cuts by raising the salaries of their workers.

What do Republican supporters of the tax bill predict will happen?

- Businesses will pass along the savings from the new corporate tax cuts by raising the salaries of their workers.

- Businesses will pass along the savings from the new corporate tax cuts by raising the salaries of their workers.

- Businesses will pass along the savings from the new corporate tax cuts by raising the salaries of their workers.

"Whatever may be our wishes, our inclination, or the dictates of our passions, they cannot alter the state of facts and evidence." — John Adams, President of the United States, 1797-1801

Can we have a button so professors can send an email with a personal note and a link to our site? Something like:

[Click here to send a colleague a note about NewsFacts & Analysis.](#)

Can we have a button so professors can send a link that automatically allows an assistant to log-on to one or more of the classes that they are teaching? Like:

[Click here to send your assistant a link to this course.](#)

[Click here to send a complimentary subscription to this course.](#)

I would like a way to keep track of how many assistants and complimentary subscriptions each professor is using for each of their classes to make sure they aren't abusing the free service.

Can we allow a teacher to manually change a grade, either using a number or words? For example, a professor may let a student take the quiz in class using pen and paper? Or a student might be ill so he wants to write "excused" as a grade.

Is it possible to reformat the grade report so that there are columns for each student instead of rows (like the sample below)?

It will make it easier for professors to find a student rather than having to scroll so far down.

Also, is it possible to have a button that allows professors to export the grades for the entire class in addition to the option of exporting them for individual students?

Products

YOU ARE HERE: [HOME](#) / [PRODUCTS](#) / [inPhoto ID Webcam](#)

inPhoto ID Webcam

Is it possible to use something like this so that when students register, they are asked to take a webcam photo which is automatically linked to the photos on the Discussion Board?

[About Product](#)[Screenshots](#)[Requirements](#)[Download](#)[Buy now](#)[Activation](#)[Support](#)[Product Page](#)

inPhoto ID Webcam is the application for identification photo preparation which also includes camera control functions. It works with web cameras (webcams) and digital cameras supporting UVC/WDM protocol (e.g. Logitech or Microsoft webcams, Videology and Lumenera ID cameras). **inPhoto ID Webcam** allows to control camera from PC remotely and to perform ID photo preparation based on captured images.
